### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The claimed invention is a film formed from an adhesive layer and a layer (A), wherein the adhesive layer comprises, by weight: up to 60 parts of PVDF, 10 to 100 parts of functionalized polymethyl methacrylate (PMMA), up to 50 parts of an acrylic elastomer, 0 to 4 parts of a UV absorber, the balance making up 100 parts, and the layer (A) comprises, as main constituents, 0 to 100 parts of PVDF per 100 to 0 parts of PMMA, respectively.
2. While reference of record Patent 6,479,161 to Araki et al discloses a film having multilayered structure comprising a fluorine-containing adhesive layer and at least one laminated layer, Araki does not disclose the chemical formulation of the adhesive layer comprising a functionalized polymethyl methacrylate. There is no motivation to combine the teachings of Araki invention with Kappler'4,990,406 or Ohmori' 4,581,412 because: Kappler and Ohmori disclose solution or suspension coating compounds. Kappler and Ohmori do not disclose the adhesive layer and outer layer (A).
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
